Statistics show that 23 per cent of all ruined clincher

tires are rim-cut.
Experience proves that 10 per cent oversize, under aver-

age conditions, adds 25 per cent to the tire mileage.

Goodyear No-Rim-Cut tires end rim-cutting entirely.

They average more than 10 per cent oversize, measured by air capacity.

This double saving, after years of experience, is estimated

by us at \$20 per tire.

That means average saving. It is affected, of course, by isuse and abuse. It varies with different sizes.

Whether more or less, it means millions of dollars to motorists each year.

800,000 Tested Out

Over 800,000 of these tires have been sold. Their enormous advantage is settled now beyond any possible. That's why the demand for tires

Cover \$00,000 of these tires have ren sold. Their emermous advantage settled now beyond any possible usettien. In two years the demand has multiplied six times over. Last ear's sales exceeded the previous 2 years put together. The hack of these tires are 13 years put together. The hack of these tires are 13 years put together. Every formula and fabric, method and process has been tested out by us on tire testing machines. When a tire thus outsells every tire in existence it must be the tire constant comparison we have brought these tires close to perfection. In all tools whilly, tires can never be made

for you. Same Price

The curious fact is that No-Rim-Cut tires now cost the same as other standard tires. They used to cost one-fifth more.

The enormous demand has cut the cost of production.

Now these tires which can't rimerat cost the same as tires that do. These oversize tires cost the same as tires that do. These oversize tires cost the same as smaller tires.

Add to such tires the No-Rim-Cut feature—add, the oversize feature—add, the oversize feature—add, the oversize feature—add the oversize feature—then think what tires you get them, remember, at finish or for feature—add the oversize feature—add the oversize feature—then think what tires you get the price of the ordinary when you may be price or the price of the ordinary when you may be price or the price of the ordinary when you may be price or the ordinary when you may be

Silk Petticoats, \$2.98

One has to see and feel a Silk Petticoat to judge of its worth. There's the "loaded" petticoat, the feel of which condemns it. Then there is the "rag" of a petticoat, dear at less than \$2.98.

Now and then-it's a very rare happening-\$2.98 will buy Silk Petticoats good to the sight and touch, fitting the hips snugly, and finished with the correct flat side pleatings and ruffles.

Here to-day on third floor.

Choice of Messaline and Taffeta Silk, in the new shades of blues, browns, reds, garnet, green, cerise, gray, and black. Petticoats worth - for only \$2.98.

Would you kindly say, "I saw the announcement in The Herald?"-it will indirectly fielp the newspaper, the store, and yourself.

Demonstration of "La Premiere" Corsets.

Visitors will be fitted without regard to a sale, but special inducements are to be made during the "demonstration" of these new "La Premiere" Corsets, as follows: The new \$6.50 models to be \$5.50; the new \$10.00 models for \$9.00; the new \$12.00 models for \$10.00. The newly appointed Corset Parlors now being complete in every detail, a visit satisfactory in every respect is assured.

EVIDENCE IS NOT COMPLETED

Mitton W. Blumenberg, official reporter for the Lorinier investigating committee, was yesterday relieved from duty and cited to appear as a witness. This was the segred to the statement made by Mr. Blumenberg before the committee last Saturday night that the stenographic notes submitted in evidence by Detective Burns' dictograph operator, J. E. Sheridan, were fabricated. It was not expected that Mr. Blumenberg would be able to appear before the committee yesterday or account of his physical condition, but he was present, accompanied by his brother, Menden H. Blumenberg, one of the official reporters of the House.

After a heated argument, Mr. Blumenberg was called as a witness, and for more than an hour was subjected to a grilling examination. Senator Kern and Senator Lea took turns at questioning him. It was manifest that both Senators resented the action of the official reporter of the committee. They tried to set him to admit that be had acted for the Lorimer side in his efforts to mere the committee of the committee that he had accuracy of Sheridan's report, but the wincess instead that he had acided on his own volitice. He said that he had become, interested in the wineas, account of the working of the digitariah merely as a stension-pier and from the standgoint of a shertland expert. He essettled that he had bought from the standpoint of a shorthand expert. He estified that he had thought that the machine was a device for receiving and recording conversation, and that it was mechanically perfect for such work, and did not require the assistance of any human agency. Prompted by his interest in the machine, be had interviewed Sheridan for about five inhuites and had decided that Sheridan was an "amatesit," and after studying the speak as they appeared in Sheridan's notebook produced in evidence, he had reached the conclusion (not they were "manufactured."
